

Faruq Hossain

UI/UX Designer | Product Designer

📞 01750005162 ✉️ faruq1287@gmail.com 🌐 [linkedin.com/in/mkfaruq](https://www.linkedin.com/in/mkfaruq)

Profile

Creative UI/UX designer with 2+ years of experience crafting user-centered digital interfaces using Figma, Adobe Suite and modern design systems. Passionate about turning complex requirements into elegant and functional designs for web, mobile and dashboard applications. Skilled in visual design and collaboration with developers to deliver production-ready experiences.

Skills

Design Tools: Figma, Photoshop, Illustrator, Blender

Core Skills: UI Design, UX Research, Wireframing, Prototyping, Design Systems, Visual Design

Soft Skills: Team Collaboration, Problem Solving, Communication

Experience

UI/UX Engineer at SmartThink (Jul 2024 - Present)

Designing intuitive digital product experiences, translating user needs into clean and functional interfaces. Created wireframes, high-fidelity mockups and interactive prototypes in Figma. Collaborated with developers to ensure design consistency and usability across platforms.

Designer at Prime IT (Dec 2017 - Mar 2019)

Worked as a product designer for a USA-based company, creating 3D mockups and visual assets for promotional items. Delivered product designs and supervised mold design for factory production.

Additional Experience

- Manager at BHUBON Construction Ltd. (2019–2023)
- ICT Trainer at ICT Ministry of Bangladesh (Contractual, 2018)

Key Achievements

- Redesigned the **Post Office Mail Booking System** using Interaction Design principles and Responsive Design, reducing user clicks and task time by streamlining workflows and surfacing essential booking information on the main dashboard
- Enhanced the **IoT System Monitoring Dashboard** through clear data visualization, improved information architecture, and intuitive layouts, enabling users to monitor system performance more efficiently
- Designed the **Bongo Source B2B Marketplace App** by applying Material Design patterns and user-centered flows, optimizing buyer-seller interactions for a smoother mobile experience
- Collaborated closely with developers and product teams at **SmartThink** to maintain visual consistency and ensure seamless design-to-development alignment
- Conducted Usability Testing and integrated insights from User Research methodologies to refine user flows and improve overall clarity and ease of use across projects
- Delivered accessible, user-focused interfaces that improved task completion rates, reduced friction and increased user satisfaction across multiple products

Selected Projects

- Bongo Source – B2B Marketplace App - [Figma](#) - [Play Store](#)
- IoT System Monitoring Dashboard - [Figma](#) - [Dribbble](#)
- Post Office Mail Booking System - [Figma](#) - [News Portal](#)
- iBanker – Anti-Money Laundering Cloud Dashboard - [Figma](#) - [Web App](#)

Education

Bachelor of Science (BSc.) in Computer Science & Engineering (CSE)
Southeast University, Dhaka, Bangladesh
